1. The DCI has given me the green light to proceed with preparation of a National Intelligence Estimate on International Financial Problems.  and I will be the main drafters. We will need to consult with a great many people, both inside and outside the government. Before sending the Concept Paper and Terms of Reference to agency representatives for formal approval, we would like to elicit some informal views from you and from officials in your department who have a particular interest in this matter. I will be out of the country during the week of June 21st, but would like to begin discussions the following week.

2. The attached draft Concept Paper and Terms of Reference are intended to give a concrete picture of the issues we are concerned about. Despite their elaborateness, however, we do not plan to write a long paper--only about 30 pages double-spaced. My secretary, , will contact you to set up meetings.
